Finger control

Finger control
1. Finger control
2. Preview of the effect
    2.1. The USB camera
    2.2. The CSI camera

MediaPipe is a cross-platform machine learning framework that can process key point detection such as hands, faces, and poses in videos and images in real time.

1. Finger control

MediaPipe finger control can control the size of the progress bar on the right by controlling the distance between the thumb and the index finger (opening/closing them).

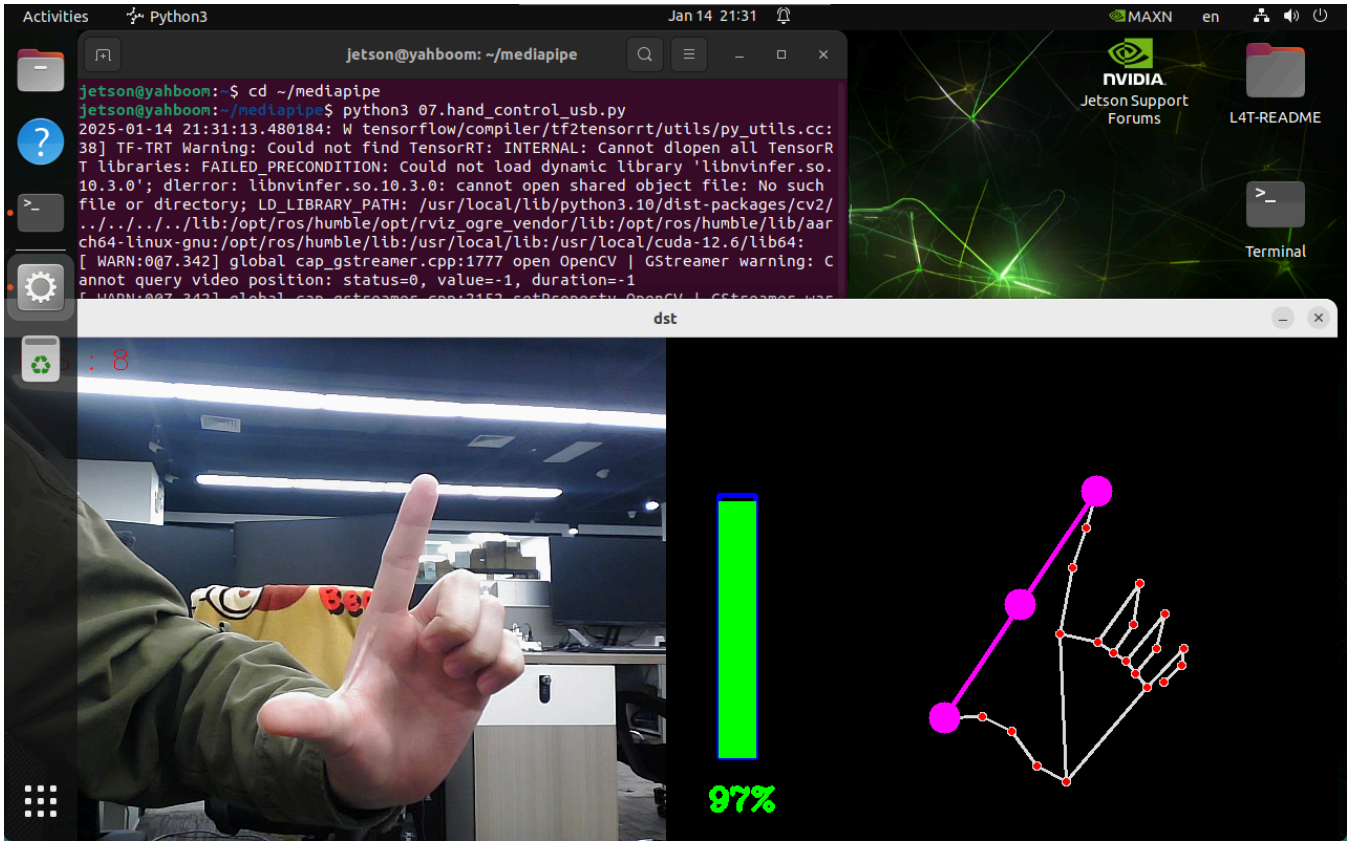

2. Preview of the effect

2.1. The USB camera

```
cd ~/mediapipe
```

```
python3 07.hand_control_usb.py
```

Note: click the camera window and press `q` to exit the program!

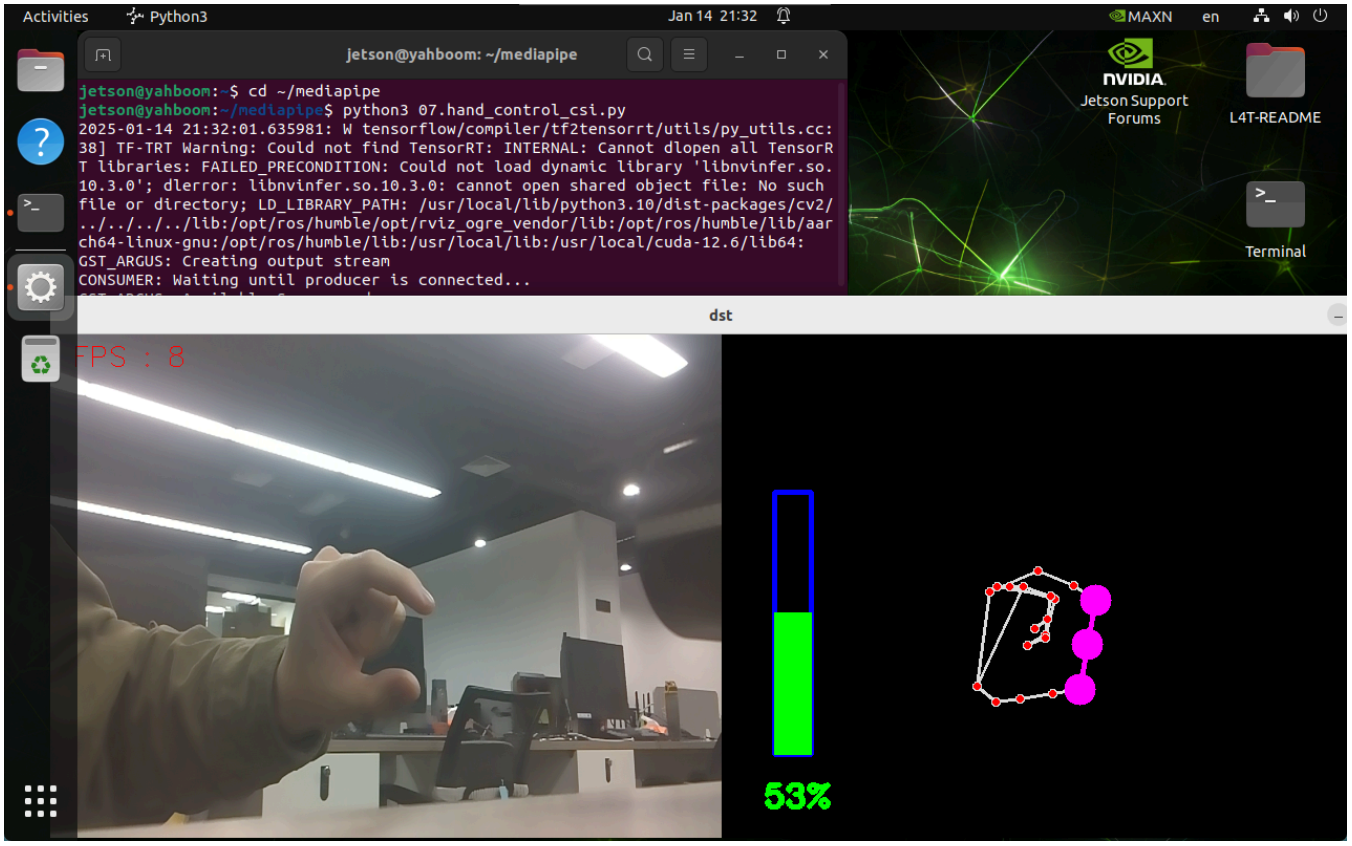

2.2. The CSI camera

```
cd ~/mediapipe
```

```
python3 07.hand_control_csi.py
```

Note: click the camera window and press `q` to exit the program!
